Introduces the NEW...

2023
atom

ATOM's flexible design and rigid build give the mid-size truck camper segment a new contender.

Weighing in under 1,000lbs, the ATOM's new laminated structure adds significant strength, while helping reduce weight. ATOM is built with versatility in mind. Whether it be the Jetboil portable camp stove or the quick disconnect power jacks, the ATOM is meant to be taken off the beaten path.

Laminated Structure • Quick Disconnect Power Jacks • Weight - 990lbs travel weight • Fitment full-size truck down to Gladiator and Maverick* Pending tie downs • EZ Fit Floor • Slightly narrower to make backing under easier

Dry Weight	990lbs*	Ext. Height (no A/C)	7'6"
Ext. Length	10'6"	Ext. Height (w/ A/C)	8'4"
